Hi my name is Kathy Lavallee, address 40 Haynes Street, Enfield, CT 06082

My nephew Johnathan Stewart was killed by a motorist in 2002 and because the statute of limitations expired in 2007 the person who came forward and admitted to the crime in December of 2015 can't be prosecuted. I want justice for my nephew and the many others out there that have to live with a person not being prosecuted because of the statute of limitations. Its not right that the person that came forward because he had to "clear" his conscience after all these years can't be prosecuted. It is wrong. I totally support Bill #346.
